SUBJECT.

Re-appropriation for certain District Fund
works

Indexed
as

Memo:

While the current year's district Fund Budget was under preparation certain projects in the Bangalore district were struck out for want of sufficient funds.

2 The amount now available in the Bangalore district is Rs 3000 - of which a sum of Rs 2000 was assigned to the Comr. and Rs 1000 to the Deputy Commissioner for the works specified in the order no $\frac{2861}{48}$ of 19th June/76, herewith put up.

3 There are no other funds available for the estimate amounting to Rs 1876 for connecting the high ground and the roads in the vicinity of

General Department.

Sir,

In reply to your No. 2445¹⁸ dated 20th June 1876, calling for explanation regarding excess expenditure of Rs 542 above the sanctioned Estimate for furniture for 3rd class Travellers Bungalows Chitaldroog, I have the honor to report that the excess only amounts to Rs 82-14-0 and is due to extra cost of carriage in distributing the furniture to the several Bungalows in the District. The large excess reported arose from furniture for Bungalows in the Madur District having been debited against the Chitaldroog estimate.

I have the honor to be

Sir,

In returning the plans and estimates for certain District Fund works in the Sundhydroog Division forwarded with your Memo. dated 10th June, I have the honor to forward copy of a Memo. by the Superintending Engineer Road and Buildings Branch. I concur in the remarks made therein, but would suggest, as the works are to be carried out under Revenue Officers, the extra thickness of abutments had better be adhered to. The estimates are for large amounts and the reductions in width of roadway suggested would reduce them considerably.

I have the honor to be

Memorandum.

5

Estimate for Tunnels in the Chikballapur
Goribidnur District Road.

In the Tunnels of 3 vents to $5 \times 5\frac{1}{2}$, 4 vents to $5 \times 4\frac{1}{2}$ and 10 vents to 5×6 , there is no necessity for making the abutments thicker than the piers. The pressure of earth behind need not be taken into account.

In the Tunnels of 3 vents to 5 ft. high, and the 10 vent Tunnel 6 ft. high. I think that if the masonry be built up to the specification, 2 ft. thickness of piers would be sufficient, a considerable saving would be thus effected, as the thickness of deck foundations of the 10 vent Tunnel would also be less.

Allowance has not been made for earthwork to approaches, some course to be required between the ends of embankments if already formed and the abutments.

Estimate for Tunnels on the Chintamani Bagipalli Road 2^d and 3^d sections.

This estimate is a very heavy one, but it may be reduced to some extent by cutting down the thickness of nearly all the piers

and abutments as proposed for first project.

Aprons and retaining walls may not be required in all the Tunnels when deep foundations are put in, but this can only be ascertained hereafter.

For this class of road, I think a width of 18 ft. of roadway across Tunnels is more than is required; by cutting it down to 15 feet and making the parapets 1 foot thick only, but $2\frac{1}{2}$ or 3 high, a considerable saving would be effected.

Provision for roping of some sort to the parapets is necessary.

Dispensary for Tunnels

There is no plan from which to check Estimate, and apparently it is not yet decided what the building is to be, so that it would be waste of time criticising what may not be adopted.

I note however that the proposed outfall on compound wall only, P. No. 2, 191, is very heavy.

From,

Lieutenant Colonel F. R. Johnson
Temporary Chief Engineer of Mysore

To:

The Secretary to the Chief Commissioner
of Mysore, General Department

Sir,

In returning the estimate for the
Yelav Bank on the Sorub-Siddahur Road,
I have the honor to point out, that the infor-
mation given is not sufficient to allow of my
forming a conclusive opinion as to the necessity
of so large an expenditure. There is only one
cross section given of the road, and this does
not shew its present condition, but only what
is intended to raise it to. I cannot understand
a bund with not more than 6 ft of water
against it, and a base apparently of 35 ft,
being so verily shaken as to cause it to
leak ever since the bund may have been
damaged by the water going over it but this
is

is not stated. From the excavation of the
 early channel being requisite, it would appear,
 that no entailment of the discharge has been caused
 by the construction of the Tunnel. Has the Tank
 then been newly formed, if not, how has it stood
 up to date? As there is no cultivation below it,
 and the work is required only for the safety of
the road, what is the object, of going to the expense
 of retaining water in it, and making it water-
 tight? The road is judging from the section,
 18 ft. wide, and is levelled to the extent of 1 1/2 ft.
 in the centre; this rise is not only unnecessary
 and objectionable, but in such a position would
 be positively dangerous. I should not recom-
 mend the estimate being sanctioned till the
 points raised above have been cleared up.

I have the honor to be
 Sir

Your Obedient Servant,

Bangalore
 10th August 1862

Informs that the necessary
 appropriations will be made
 for certain uncompleted works
 from the unexpended balance
 of Rs 3,000, sanctioned during
 the past financial year from
 Irrigation Cps Funds of the
 Nagar Division

if it is intended that in future the estimates for the works of the nature mentioned in the list should be passed in the Irrigation Department and the necessary appropriations also made by the same Department, instructions may be issued accordingly. But it seems to me that as ^{the} District Irrigation forms a branch of Local Fund ^{and} properly devoted to that office.

The question as to whether the allotments made from Irrigation Cess Fund lapse at the close of the year or not, may be referred to Deputy Accountant General for opinion. A similar reference was made in regard to allotments for Relief works.

That the subject is under consideration of the Government. 1/9/76

To The Secretary to the
Chief Commissioner of Mysore
General Department

Sir,

With reference to your endorse-
ment of the 5th Instant transferring
to me for disposal the Commis-
sioner of Mysore No 342 of the
2nd July forwarded a list of
appropriations required to com-
plete works sanctioned last year
from the Migration ceps. I have
the honor to report that I have
directed the necessary appro-
priations to be made from
the unexpended balance, Rupees
3,363 at the end of the last Official
Year remaining out of Rupees
10,000 sanctioned in your No. 14600
of the 10th Feb 1875.

2. The appropriation now asked
for amount to Rupees 2,199 only
leaving a balance in the Rs.
10,000 of ~~the~~ Rupees 1,164 unal-
located. On the supposition
that allotments made from
the Migration ceps do not lapse
at the close of the year, as would

appear from the reference under
reply. I beg to enquire whether
it is intended to sanction other
Estimates against this amount
or whether it should be resumed
by your office.

3. If such allotments do not
lapse at the close of the year
in which they were granted
ought not appropriations
made for individual works
also stand good until ex-
-pended or formally resumed?
No rules on this subject have
I believe been laid down by
the Chief Commissioner.

I have the honor to be

From

Lieut. Coll. W. R. Johnson
Offg Secretary to the Chief Commissioner
of Mysore Public Works Department

To

The Secretary to the Chief Commr of Mysore,
General Department

Sir,

I have the honor to forward herewith
an Estimate amounting to Rs 1876 for connect-
-ing the High ground and the roads in the
vicinity of the Public Offices by a road
through the Chief Commissioner's Compound,
and by desire of the Chief Commissioner, to
request you will, if possible, obtain formal
sanction to the same as a District Fund
work, and place the amount at the disposal
of the P.W. Department to allow of its being
at once carried out by that Department

I have the honor to be
Sir,

District Funds Public Works Budget-Estimate, Mysore, 1876-77.

Read the following :—

Letter from the Secretary to Chief Commissionär, Mysore, No. 3554, dated 8th July 1876.

OBSERVATIONS.—The amount provided for expenditure from District funds on Public Works in Mysore, during 1876-77, is set down at Rs. 5,33,484, but of this sum Rs. 21,522 is for miscellaneous charges consisting of establishment for dāk bungalows and dispensaries, which have no connection with Public Works, so that the real grant is Rs. 5,11,962. This amount is distributed as follows compared with the grant for 1875-76 :—

	1876-77.	1875-76.
	Rs.	Rs.
<i>Original Works—</i>		
Buildings	10,544	10,500
Communications	2,28,687	2,18,300
Miscellaneous Public Improvements	16,455	17,840
	2,55,686	2,46,640
<i>Repairs—</i>		
Communications	1,66,127	1,49,795
Miscellaneous Public Improvements	11,992	2,530
	1,78,119	1,52,325
<i>Total Works and Repairs</i> ...	4,33,805	3,98,965
<i>Establishment</i>	70,540	69,282
<i>Tools and Plant</i>	7,617	9,250
TOTAL	5,11,962	(a) 4,77,497
	Increase ...	34,465

(a) Excludes Rs. 9,926 on account of Civil charges.

Transposed estimate from the Asst. Engineer Coorg B. for the annual repairs of the Perajpet Perapatare road via Siddapoor for Rs 3000 p sanctioned.

Draft

76

No: 1572

R.R. 18 Aug 1

5/8/76

The estimate may be sanctioned thru brief provision in the Budget - but it may be observed that the cost pri vate including repairs

to bridge amounts to abt Rs 146 1/2 -

R. P. Munniboy

9/8/76

The Est. provides for the extraordinary repairs of the bridge road & the repair of the existing wooden bridge as may be found necessary - the average cost being 146 1/2 per mile - Sanction may be refused, but the Est. is to be kept in view for the repair & reconstruction of the bridge as may be found necessary.

10/8

Approved

but provision has to be made for the temporary wooden structures being of iron and steel & for the reconstruction of the bridge as may be found difficult to prepare a definite estimate estimate & calculate the cost of the bridge as may be found necessary.

of the Est. provides for the repair of all the bridges in the Coorg B. as may be found necessary. The estimate is to be kept in view for the repair & reconstruction of the bridge as may be found necessary.

*Proceedings of the Chief Commissioner of Mysore, General Department,
24th January 1877.*

From the Commissioner, Nagar Division, To the Offg. Secretary to the Chief Commissioner of Mysore, General Department, No. 898—D. P. W. 213, dated 3rd January 1877.

His Nos. 2551—2 and 2554—56 of the 22nd June and 2nd October 1876, calling for submission of District Irrigation Fund Budgets for the year 1876—77.

Has the honor to forward a statement of Irrigation receipts and proposed expenditure of the Shimoga District, with copy of Deputy Commissioner's letter No. 1008 of the 15th ultimo, for sanction, and to request that, in the event of the Deputy Commissioner's proposal to entertain another Surveyor being sanctioned, the Chief Engineer may be asked to select a competent person and appoint him to the post.

2. The letter referred to by the Deputy Commissioner in his 3rd para is an application for an increase to the strength of the District Fund Engineering Establishment, regarding which further information from the Deputy Commissioner is awaited.

3. The Budget of the Chitaldroog District has been returned for certain corrections, and will be submitted when received.

From the Offg. Deputy Commissioner, Shimoga District, To the Commissioner, Nagar Division, No. 1008, dated Shimoga, 15th December 1876.

With reference to your No. 818, dated 12th November last, regarding the preparation of an Irrigation

	Rs.	A.	P.
Balance on the 1st April 1876 ...	95,358	9	3
Estimated collection during the year for 1876—77 ...	25,000	0	0
Total.....	1,20,358	9	3

Budget for the current year, I have the honor to state for your information that the total amount at the credit of the fund is Rs. 1,20,358—9—3, as particularized in the margin. The present official year having so far advanced leaving only three working months, I have not considered it advisable to frame a regular budget programme for the full amount, as it could not be worked out judiciously in so short a time. So many tanks are in general dis-repair throughout the District, that a systematic selection of the works most suited to begin upon, even, would take some time.

2. I intend confining my operations, therefore, for the present, to such of the tanks requiring repairs as would afford relief to the distressed in the marginally noted Maidan taluks. Estimates for some of them are received and are being revised in the District Office and should early sanction be accorded to the lump sums provided, I will take steps to have the works put in hand in the commencement of January next and expect to have the full amounts worked out by the end of the year.

3. Since the creation of Irrigation funds up to the present, no expenditure, except in a few isolated cases, has been made from this source and therefor no separate agency has been entertained; but without some staff, the preparation of projects and supervision of works cannot conveniently be done, and consequently a Surveyor on Rs. 100 with a travelling allowance of Rs. 30 per mensem for 3 months has been provided as proposed in my previous No. 872, dated 7th November 1876, two lascars and instruments required for a Surveyor are also put in.

4. In the event of your approving these suggestions I also have the honor to request that you will ask that the Chief Engineer may select a qualified Surveyor and send him to be entertained as soon as sanction is accorded to the budget proposals. I need hardly urge the necessity of this appointment being made simultaneously with the budget sanction, for it must be apparent that with my present staff, fully occupied as they are, it will not only be very difficult without further help to work out the current year's appropriation now applied for, but the programme for the ensuing year also mainly depends upon the means given me for preparing schemes.

*Proceedings of the Chief Commissioner of Mysore, General Department,
24th January 1877.*

Statement shewing the Realizations and Expenditure from Irrigation Cess Fund from January to end of March 1877.

IRRIGATION CESS FUND.

No. 192, DATED BANGALORE, 24TH JANUARY 1877.

ORDER THEREON.—It is observed that the balance at the credit of the Irrigation Fund on 1st April 1876 amounted to Rs. 95,358—9—3 and the probable receipts during the current year are estimated at Rs. 25,000, making an aggregate of Rs. 1,20,358—9—3 available for expenditure. The expenditure for three months of the current year is estimated at Rs. 10,731 as shewn below :—

				Rs.
Lump sum to be placed at the Dy. Commissioner's disposal	..	7,000		
Do do Commissioner's do	..	3,000		
1 Surveyor at Rs. 100	..	300		
Travelling allowance	..	90		
Lascars	..	36		
Instruments and stationery	..	305		
				10,731

2. As it is not likely that the whole amount applied for can be expended before the 31st March, the Chief Commissioner directs that allotments of Rs. 3,000 and 5,000 be placed at the disposal of the Commissioner and Deputy Commissioner, respectively, for expenditure during the current official year.

3. The Deputy Commissioner is authorized to entertain an Assistant Surveyor temporarily on Rs. 75 a month including horse allowance for 6 months, and an additional sum of Rs. 300 is sanctioned for instruments and contingencies including any temporary lascar to be employed.
